MECHATRONICS **ENGINEERING - M.S.**

College of Aeronautics and Engineering www.kent.edu/cae

About This Program

The Master of Science degree in Mechatronics Engineering provides an advanced theoretical and/or research-oriented curriculum with significant depth in mechatronics-related discipline, beyond the general fundamentals of the engineering bachelor's degree.

Contact Information

- Program Coordinator: Ali Abdul-Aziz, Ph.D., P.E. | CAEgraduatestudies@kent.edu | 330-672-1032
- · Connect with an Admissions Counselor. U.S. Student | International Student

Program Delivery

- Delivery:
- In person
- · Location:
 - Kent Campus

Examples of Possible Careers and Salaries*

Architectural and engineering managers

- · 2.6% slower than the average
- 198.100 number of iobs
- \$149,530 potential earnings

Engineering teachers, postsecondary

- 8.6% much faster than the average
- 44,600 number of jobs
- \$103,600 potential earnings

Engineers, all other

- 1.3% slower than the average
- 170,100 number of jobs
- \$103,380 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics'

Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Bachelor's degree in mechatronics engineering or closely related area (e.g., electrical engineering or mechanical engineering) from an accredited college or university
- · Minimum 2.750 GPA on a 4.000-point scale
- Official transcript(s) from each institution in which 8+ semester credit hours were attempted
- Goal Statement
- · Three letters of recommendation
- · English language proficiency all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
 - Minimum 550 TOEFL PBT score
 - Minimum 79 TOEFL IBT score
 - Minimum 77 MELAB score
 - · Minimum 6.5 IELTS score
 - Minimum 58 PTE score
 - · Minimum 110 Duolingo English score

Application Deadlines

Fall Semester

Application deadline: November 1

Applications submitted after this deadline will be considered on a spaceavailable basis.

Program Requirements

Major Requirements

Code	Title	Credit Hours		
Major Requirements				
ENGR 53030	MECHATRONICS	3		
ENGR 57200	SYSTEMS ENGINEERING	3		
ENGR 61091	GRADUATE SEMINAR	1		
ENGR 68005	LINEAR SYSTEM ANALYSIS AND CONTROL	3		
Mathematics Elective	, choose from the following:	3		
MATH 50015	APPLIED STATISTICS			
MATH 52011	MATHEMATICAL OPTIMIZATION			
MATH 52031	MATHEMATICAL MODELS AND DYNAMICAL SYSTEMS			
MATH 52045	PARTIAL DIFFERENTIAL EQUATIONS			
MATH 52201	NUMERICAL COMPUTING I			
MATH 52202	NUMERICAL COMPUTING II			
Focus Areas, choose	one course from two areas:	6		
Control Systems				
ENGR 58004	OPTIMAL CONTROL THEORY			
ENGR 68006	NONLINEAR SYSTEMS AND CONTROL			
ENGR 68007	DIGITAL CONTROL SYSTEMS			
ENGR 68008	INTRODUCTION TO ROBUST CONTROL			
Robotics and Automation				
CS 53301	SOFTWARE DEVELOPMENT FOR ROBOTICS			
CS 53334	HUMAN-ROBOT INTERACTION			
ENGR 62620	INDUSTRIAL AUTOMATION AND CONTROL			
ENGR 67300	MEDICAL ROBOTICS			
ENGR 67400	ROBOTICS: KINEMATICS AND DESIGN			
ENGR 68101	AUTONOMOUS UNMANNED AERIAL SYSTEMS

- Students selecting the thesis option complete 3 credit hours of ENGR 65098 and must continually register for ENGR 65199 for maximum 6 credit hours toward the degree (students may need to register for ENGR 65299 to complete the thesis requirement; however, those credit hours do not, whatsoever, count toward the degree).
- ² Students selecting the non-thesis option complete 3 credit hours of ENGR 65098 and 6 credit hours from the elective options in the program. At minimum, the non-thesis activity requires a report and a presentation and/or demonstration.

Program Learning Outcomes

Graduates of this program will be able to:

- 1. Conduct literature searches, comprehend advanced research materials and uncover connections between related work.
- 2. Perform research, discovery and integration by applying advanced knowledge of mechatronics engineering.

3. Communicate problems and solutions in mechatronics engineering clearly, both verbally and in writing.
