The Mild to Moderate Special Education minor provides students with valuable knowledge related to meeting the special educational needs of students with mild to moderate disabilities in schools. Mild to moderate disabilities include learning disabilities, ADHD, emotional and behavioral disorders, mild intellectual disabilities, and autism spectrum disorders without accompanying intellectual impairment.

The minor allows students to learn effective practices for differentiating instruction, behavior management, collaboration and supporting students with mild to moderate disabilities in general education classrooms.

This minor is particularly relevant for students seeking to work in the K-12 academic environment, including those with a major or interest in education, special education, psychology, public health, sociology and human development and family studies.
