Program Delivery

- **Delivery:**
 - Fully online
 - Mostly online
 - In person
- **Location:**
 - Kent Campus

Admission Requirements

Admission to this minor is selective, open only to students who are declared in one of the following majors: Biology; Biotechnology; Botany; Chemistry; Earth Science; Environmental and Conservation Biology; Environmental Studies; Geography; Geology; Integrative Studies; Medical Laboratory Science; Neuroscience; Physics; and Zoology.

Program Requirements

Minor Requirements

Code	Title	Credit Hours
Minor Requirements		
PH 20001	ESSENTIALS OF EPIDEMIOLOGY	3
PH 30002	INTRODUCTORY BIOSTATISTICS	3
PH 30006	INTRODUCTION TO ENVIRONMENTAL HEALTH AND SAFETY	3
PH 30007	PREVENTION AND CONTROL OF DISEASES	3
Minor Electives, choose from the following:		9
PH 30012	COMMUNICABLE DISEASES	
PH 30101	SOLID AND HAZARDOUS WASTE MANAGEMENT	
PH 30103	FOOD PROTECTION	
PH 30105	WATER AND WASTEWATER MANAGEMENT	
PH 42100	CLIMATE CHANGE AND POPULATION HEALTH	

PH 43013	BUILT ENVIRONMENT AND PUBLIC HEALTH	
Minimum Total Credit Hours:		21

Graduation Requirements

Minimum Minor GPA	Minimum Overall GPA
2.000	2.000

- Minimum 6 credit hours in the minor must be upper-division coursework (30000 and 40000 level).
- Minimum 6 credit hours in the minor must be outside of the course requirements for any major or other minor the student is pursuing.
- Minimum 50 percent of the total credit hours for the minor must be taken at Kent State (in residence).

Program Learning Outcomes

Graduates of this program will be able to:

1. Address the basic concepts, methods and tools of public health data collection, use and analysis and why evidence-based approaches are an essential part of public health practice.
2. Address the socio-economic, behavioral, biological, environmental and other factors that impact human health and contribute to health disparities.

Full Description

The Environmental Health Sciences for Natural Science Majors minor is intended for students who have a strong interest or curricular focus in a natural science major. This includes students in a variety of majors including, but not limited to, biology, chemistry, geology, geography, physics, botany and zoology. The minor provides students with foundational concepts in environmental health as it relates to the broad field of public health.

Students who complete the required coursework and have 30 credit hours of coursework in specific public health areas, biology, chemistry, physics, geology, math or statistics can pursue a Registered Environmental Health Specialist (REHS) career path in State of Ohio agencies to become a Registered Environmental Health Specialist (REHS), and are well equipped to enter the workforce in a variety of career paths.
