Philosophy (PHIL)

PHIL 11001 INTRODUCTION TO PHILOSOPHY (KHUM) 3 Credit Hours

An introduction to the diverse methods and subject matters of philosophy. Possible topics and/or questions may include: the nature of reality, consciousness, existence, agency, knowledge or God. Readings include significant primary source assignments from historical and/or contemporary philosophers.

Prerequisite: None.

Schedule Type: Lecture

Contact Hours: 3 lecture

Grade Mode: Standard Letter

Attributes: Kent Core Humanities, TAG Arts and Humanities, Transfer Module Humanities

PHIL 11009 CRITICAL THINKING (KADL) 3 Credit Hours

Critical thinking is essential to all aspects of life. From understanding current events to examining a contract or other legal document to participating in policy debates. This course teaches the strategies of "cognitive self-defense" that allow students to see past false claims and avoid being deceived by misleading rhetorical strategies. The course also examines the role of argument in reasoning, including types of arguments and the ways in which mistakes in reasoning can lead us astray. Examples from everyday life illustrate the sorts of complex reasoning that are a crucial part of practical decision-making.

Prerequisite: None.

Schedule Type: Lecture

Contact Hours: 3 lecture

Grade Mode: Standard Letter

Attributes: Kent Core Additional, TAG Arts and Humanities

PHIL 20095 SPECIAL TOPICS 3 Credit Hours

(Repeatable for credit) Sophomore level course with variable content of philosophical interest.

Prerequisite: None.

Schedule Type: Lecture

Contact Hours: 3 lecture

Grade Mode: Standard Letter

PHIL 21001 INTRODUCTION TO ETHICS (KHUM) 3 Credit Hours

Course is designed to introduce students to questions of value (right/wrong, good/bad) and the systematic analysis of those questions. This course examines minimally three competing ethical theories using primary sources: virtue ethics (Aristotle), deontological ethics (Kant) and utilitarianism (J.S. Mill). The theories are critically assessed and students are asked to think about whether and how each theory is useful when assessing "real world" questions.

Prerequisite: None.

Schedule Type: Lecture

Contact Hours: 3 lecture

Grade Mode: Standard Letter

Attributes: Kent Core Humanities, TAG Arts and Humanities, Transfer Module Humanities

PHIL 21002 INTRODUCTION TO FORMAL LOGIC (KMCR) 3 Credit Hours

Course is designed to sharpen students' reasoning skills and to help them better understand the structure of reasoning in general. Students are introduced to some formal languages, including propositional logic and predicate logic, that represent the logical structure of deductive reasoning. Unlike natural languages such as English, these formal languages allow students to focus on the general structure of different types of arguments. The course covers both the construction of formal proofs in these languages, and translation between them and natural language. The study of formal logic contributes to effective and persuasive reasoning, not only in philosophy, but in any discipline or context. It also provides effective tools for evaluating the strength of natural language arguments. The skills that students acquire in this course are thus widely applicable in their personal, professional and academic lives.
